Micro Portable Dictation Machines

Micro portable dictation equipment is ideal if a longer recording time is needed to record lengthy meetings or conferences.

All Sanyo Micro Portable machines feature a conference record setting and the option to record in twin-speed which doubles the available record time on a cassette (allows 2 hours recording on a 1 hour cassette).

Give yourself the advantage in business, concentrate fully on the meeting without taking copious notes and have the opportunity to review the meeting in your own time.

The Micro Portable range is perfect for Sales Executives, Financial Advisers, Account Managers, Auditors, Surveyors and Consultants.
